Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b>	<b>Applicant(s)</b>
	10/651,188	MAHANY ET AL.
	<b>Examiner</b>	<b>Art Unit</b>
	AJIT G. PATEL	2616

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 28 February 2007.  
 2a) This action is FINAL.                    2b) This action is non-final.  
 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

- 4) Claim(s) 18-56 is/are pending in the application.  
 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.  
 5) Claim(s) 18-37 and 56 is/are allowed.  
 6) Claim(s) 38-55 is/are rejected.  
 7) Claim(s) \_\_\_\_\_ is/are objected to.  
 8) Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

#### Application Papers

- 9) The specification is objected to by the Examiner.  
 10) The drawing(s) filed on \_\_\_\_\_ is/are: a) accepted or b) objected to by the Examiner.  
     Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
     Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).  
 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

#### Priority under 35 U.S.C. § 119

- 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).  
 a) All    b) Some \* c) None of:  
     1. Certified copies of the priority documents have been received.  
     2. Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.  
     3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 38,44 and 53 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. For claim 38, the recitation at least one wireless transceiver operable to communicate with devices on a first wireless network, the at least one wireless transceiver further operable to communicate with devices on a second wireless network operating as a subnetwork in the first wireless network is not supported by the specification as originally filed; for claim 44, the recitation at least one wireless transceiver operable to communicate with a wireless network, the at least one wireless transceiver further operable to communicate with a wireless peripheral subnetwork comprising a plurality of network devices, each having a relatively shorter range than the wireless network; for claim 53, at least one wireless transceiver operable to communicate with a wireless network, the at least one wireless transceiver further operable to communicate with a peripheral device coupled to a power supply associated with the vehicle.

3. Claim 40 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 40, line 2, the recitation “adapted to” is not a positive recitation.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 38,44 and 53 are rejected under 35 U.S.C. 102(e) as being anticipated by Diepstraten (Pat. # 5,339,316).

5. Regarding claim 38, Diepstraten disclose wireless local area network comprising at least one wireless transceiver (22,24 of fig. 1) operable to communicate with devices on a first wireless network (14,16 of fig. 1), the at least one wireless transceiver further operable to communicate with devices on a second wireless network (18 of fig. 1) operating as a subnetwork in the first wireless network; the network device being operable to receive power from a power supply associated with the vehicle (it is noted that the power is necessary in order to communicate).

Regarding claim 44, Diepstraten disclose wireless LAN comprising at least one wireless transceiver operable to communicate with a wireless network, the at least one wireless transceiver (22,24 of fig. 1) further operable to communicate with a wireless peripheral subnetwork comprising a plurality of network devices (30-1---30-3; 34-1---34-3 of fig. 1), each having a relatively shorter range than the wireless network; the mobile network device being mountable on the vehicle in such a way as to provide the mobile network device access to a power supply associated with the vehicle (it is noted that the power is necessary in order to communicate).

Regarding claim 53, Diepstraten disclose wireless LAN comprising at least one wireless transceiver (22,24 of fig. 1) operable to communicate with a wireless network, the at least one wireless transceiver further operable to communicate with a peripheral device (18 of fig.1)coupled to a power supply associated with the vehicle; and the network device being mountable on the vehicle in such a way as to provide the network device access to the power supply associated with the vehicle (it is noted that the power is necessary in order to communicate).

6. Claims 18-37,56 are allowed.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to AJIT G. PATEL whose telephone number is 571-272-3140. The examiner can normally be reached on MONDAY- FRIDAY.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wellington Chin can be reached on 571-272-3134. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
